Synopsis

Room Full of Spoons takes an in-depth look at the making of the cult hit movie "*The Room*", its accompanying fan movement, and the individuals who have championed its status as one of the worst films ever made.

Follow filmmaker Rick Harper and his team on their journey across the globe as they experience this midnight movie phenomenon, meet with the entire cast and crew of the *The Room*, and piece together the story behind its mysterious creator Tommy Wiseau.

Known as the "*Citizen Kane of bad movies*", *The Room* grossed only $1900 during its initial box office run. Against all odds, Mr. Wiseau's disastrous film found a new life on the midnight movie circuit and now plays to audiences around the world making it one of the most adored and important films in popular culture. The film has spawned everything from a live stage show to a video game to a best-selling book by co-star Greg Sestero that is currently being developed into a feature film directed by and starring James Franco.

Room Full of Spoons is a comprehensive documentary about this cult phenomenon and includes:

- Interviews with the entire cast & crew of the film
- Visits to all the shooting locations
- An in depth look at *The Room's* mysterious and eccentric creator, Tommy Wiseau
- The journey of three Canadia fans turned documentary filmmakers.

Biography

Founded in 2011, Rockhaven Pictures is a team of childhood friends turned filmmakers from the Ottawa/Gatineau region who bring stories to life through music videos, films and documentaries.
